Monitors

S Series

Acer S Series monitors are very slim yet spacious displays that are great for multitasking and web browsing. High-def visuals leap to life thanks to Full HD resolution and an extremely high contrast ratio. You'll appreciate both the imagery and the look of this streamlined yet powerful Acer monitor!

Ultra-thin, space-saving design

The S Series is designed to fit nicely in your living space, be it at home or in a SOHO, public area, or front-desk setting. Ultra-thin and ultra-elegant, the display is built around a sense of simple modernism.

Earth-friendly technologies

The S Series uses mercury-free materials and white LED technology for up to 68% lower power consumption, giving you big savings while helping preserve nature's energy resources. By meeting ENERGY STAR® 5.0 requirements, the S Series considers the environment.

Impressive performance

Games are more exciting and entertainment is truly cinematic with excellent detail courtesy of Full HD resolution. In addition, an HDMI® or DVI interface connects you to the latest high-definition devices, while an astounding contrast ratio delivers fantastic clarity.
